

Pacific Solutions International Ltd to become vendor members of i-UG

28th February 2023

Pacific Solutions International Ltd (PacSol) are today announcing they have recently chosen to become *vendor members* of i-UG, the largest IBM i user group in the UK.

As a leading document management and digital transformation services provider using the IBM i platform and by supporting this community of IBM i vendors, partners and users, PacSol are looking to the future of the modern IBM platform and how best to bring the latest technological developments to the IBM user community and their clients.

The user group also provides a forum to voice ideas, feedback and customer focused needs directly back to IBM themselves via a respected channel, further improving the platform's ability to deliver for the customer by directly influencing its development.

PacSol are very much looking forward to meeting other vendors, sponsors, partners and users of IBM i at the forth-coming [i-UG i-Power Conference 2023](#) annual event in Northampton (Park Inn by Radisson Hotel, Northampton Town Centre) on June 6th & 7th 2023.

PacSol has succeeded in providing high quality, professional and personal services to businesses across the UK from SMEs to global corporations for the last 27 years. Having initially developed their own best in class document management application for IBM iSeries, PacSol have continued to provide reliable, cost-effective and secure business solutions across many industries including finance, recruitment, retail and insurance.

PacSol no longer limits their digital transformation expertise to the IBM platform and now works with vendors such as DocuWare, Kofax, IBM and Agilico (Invu) to provide clients with the most appropriate and efficient digital transformation services, saving clients both time and money. All delivered and supported by our professional, experienced and personal PacSol team.
